

NEWSLETTER FOR IWCT MEMBERS

Dear Daniela Galietti and all IWCT members,

I am writing to thank you for having 'adopted' IO STO CON IL REGINA MARGHERITA as your chosen Charity this year. I would like to briefly inform you of what our achievements in the Hospital have been over the past 18 months.

Our first major achievement was the technological update of the Emergency Room(Pronto Soccorso) obviously a crucial area that requires top quality facilities in order to keep children there for the shortest possible time. In 2009 we allocated 50,000 euros for the purchase of specialized Intensive Care monitors, making our Pronto Soccorso one of the top ones in Italy.

In April 2010 we raised and donated a further 50,000 euros for an extraordinary project in aid of babies that are born deaf. Thanks to Cochlear implants these children, that until now would have remained permanently deaf and dumb, are now able to hear and consequently speak. In addition, these children are sustained by a speech therapist and psychologist.

Following the indication of the Ministry of Health this year we have a new extremely important project that I am particularly passionate about: PROGETTO RESIDENZA. It involves the creation of a new specific small independent ward for terminally ill children.

We have received numerous but sometimes fundamental donations such as computers, printers, toys, books, televisions, gadgets and many other things that our friends and supporters constantly provide us. I trust that this has given you a brief overview of our activity this year.

I would like to conclude, not without pride, that our budget has NO EXPENSES so whatever is given to our Charity is effectively donated 100% to the Children's Hospital.

Thank you once again for what you have done for IO STO CON IL REGINA MARGHERITA this year.

WALTER CERESA
